## The Foundation that was a Fountain, Found Dry

Cooties Paradise, Cookes Cove, at York Blvd, Old Guelph Rd, and Bell Highway, near Burlington Heights, MacNab and Barton Street sits an unknown grave next to large concrete foundations. A "Sulphur Springs" is a 2 1/2 hrs walk from this foundation. A short walk to a sepulture, this location is hidden, keeping prying eyes, and scouts at bay. You may notice Sulphur in the air nearing The Mineral spa, closed in the 1800's. High sodium content has people questioning whether this is a fountain to youth or bar mill quench.

## Beer Line, Appleby Line and Kitchikewana

In June 1916, war was a brewin and Canadians feared associating with Furious dictators overseas, so they voted to change their name. Where do you draw the line? The cider drinkers vs the beer drinkers vs the straight edge? The most famous line is the Mason Dixon line and this so-called "Beer Line" or "Bur Lin", is ancient, possibly predating the ice age! Wyandot legend tells of a god called Kitchikewana, who was large enough to guard the whole of the Georgian Bay. Berlin Ontario voted to change their city name to Kitchener May 1916.

## PICTOU COUNTY NOVA SCOTIA : ATLAS : DIEU ET DROIT : DETROIT

The Pictou County emblem above reads "Dieu et Droit". "God and Right". Right meaning Law, or Rights. French accents are crazy, and this is the magic number, three. "Trois" in French. Write that down and hear that sound "Droit". Ask me again, sir, and I say "da straight". "Des Stroaf". Three Fjords, Brant where the Bran grows, Waterfjord and one more called Burfjord. Probably a place where beer ingredients grow. Ice age glaciers flowed into the "New World" and into Lake Ontario.

Established towns seen from satellite maps give new insights to "settlers". Settlements in law courts resolved long time land owner differences. Fresh starts inferred from paper scraps.

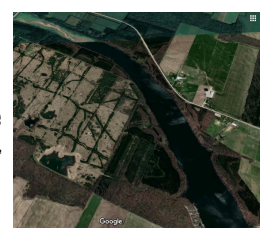

Conestogo was "settled" in the 1820's. Wyandotts date 1600 AD to 1800 AD on maps stamped 1971. People occupied and cultivated the land as natives, aboriginals, first peoples and pioneers for hundreds, upwards thousands years prior.

Belwood Lake Conservation Area sits a perfectly straight bridge road sunken into a pond. An extension to Walkers line beginning at Mount Nemo's North bend, ending at South Gate Ontario. This ancient walk passes Orton north, 6km at Eramosa intersection at Garafraxa, where 4th line turns into 5th. The Rock Wood quarry may be evidence to advanced early age gladstone brick works, used to build Dealer Wares. Through BruceDale, we might imagine a Spruce Tree and a place to drink some ale, in the Dale. On to 5th line, the same straight line, to Eramosa Karst.

## WALKERS LINE

Mount Forest, Ontario ➡ follow the arrow to the purple Dot at Walkers Line end. The last stop to a 100km straight path. Ending in a perfect radius circular moat bending the river.
